WORK HISTORY

Veriato Inc.

10/2016-12/2016
Vero Beach, FL

Contract Front End Web Developer

- Developed front end of the company's security software installer package using AngularJS, HTML, and Twitter Bootstrap.
- Using Angular, I was able to implement button manipulation throughout the application. Including links, page direction, and download buttons.
- Created validation for login and sign up forms using Angular Validation and CSS classes.
- Implemented user friendly design using HTML and responsive web design using Twitter Bootstrap.

Tightline Productions

06/2015-08/2015
Melbourne, FL

Web Design Intern

- Edited client websites to update them to user friendly sites using WordPress fundamentals and WordPress plugins.
- Spoke with clients to ensure that their websites have everything they need to make their customers happy.
- Worked with head web designer to learn new techniques and shortcuts in WordPress, HTML, and CSS.

Publix Supermarkets

10/2009-08/2014
Satellite Beach, FL

Bagger, Cashier, and Bakery Clerk

- Helped customers have a quick and efficient checkout as a cashier.
- Directed customers to products they needed and answered questions they had about the store.
- Packaged and priced bakery goods, prepared and baked pastries, and organized stock as a bakery clerk.
- Trained new employees how to use the cash registers, package and price bakery goods, and how to scan products going out of date into inventory.
